Lead and Copper Plumbing Survey

Thank you for your interest in protecting your health and the health of your community. We ask that you complete this survey to maintain complete records and estimate your home's lead exposure risk.

Customer Name: _____

Phone Number: (____) _____

Physical address: _____
Street City, State Zip

Mailing Address: _____
Street City, State Zip

Year of plumbing at main consumption tap: _____
Typically the kitchen sink; if unknown, write: UNKNOWN

Is a permanent water filter installed in your home? ☐ Yes ☐ No

Is a water softener installed in your home? ☐ Yes ☐ No

What type of plumbing materials are used within the home?

Plumbing material can be verified by viewing the lines connecting to your water heater. NPR has developed an interactive plumbing identification guide: <https://apps.npr.org/find-lead-pipes-in-your-home/en/>

Check all that apply:

- ☐ Lead (dull, dark gray. Easily scratched with hard object, shiny when scratched)
- ☐ Copper (copper color, green tarnish) ☐ Known to have lead solder
- ☐ Galvanized Iron/Steel (Magnetic, black-dark gray, some reddish-brown rust, hard to scratch)
- ☐ Other _____

****Optional: If you would like a representative of the water system to visit and inspect the plumbing in person, please reach out to us at the phone number or email below.**

Your participation in this program helps protect the health of your community.
